

Beautiful plants.
Beautiful places.

"I have worked closely with Advance Plants on several Super Regional Shopping Centre precincts in South East Queensland over the past 11 years, including Pacific Fair, Westfield Garden City, Logan Hyperdome, Marina Mirage and most recently Circle on Caville.

"It is comforting knowing Advance Plants brings the knowledge and understanding of each site and can transform a thought into a dynamic art form with indoor plantings and landscape design.

"I would have no hesitation in recommending Advance Plants into any property of business unit."

Gary Milne
Cool Change Property Services

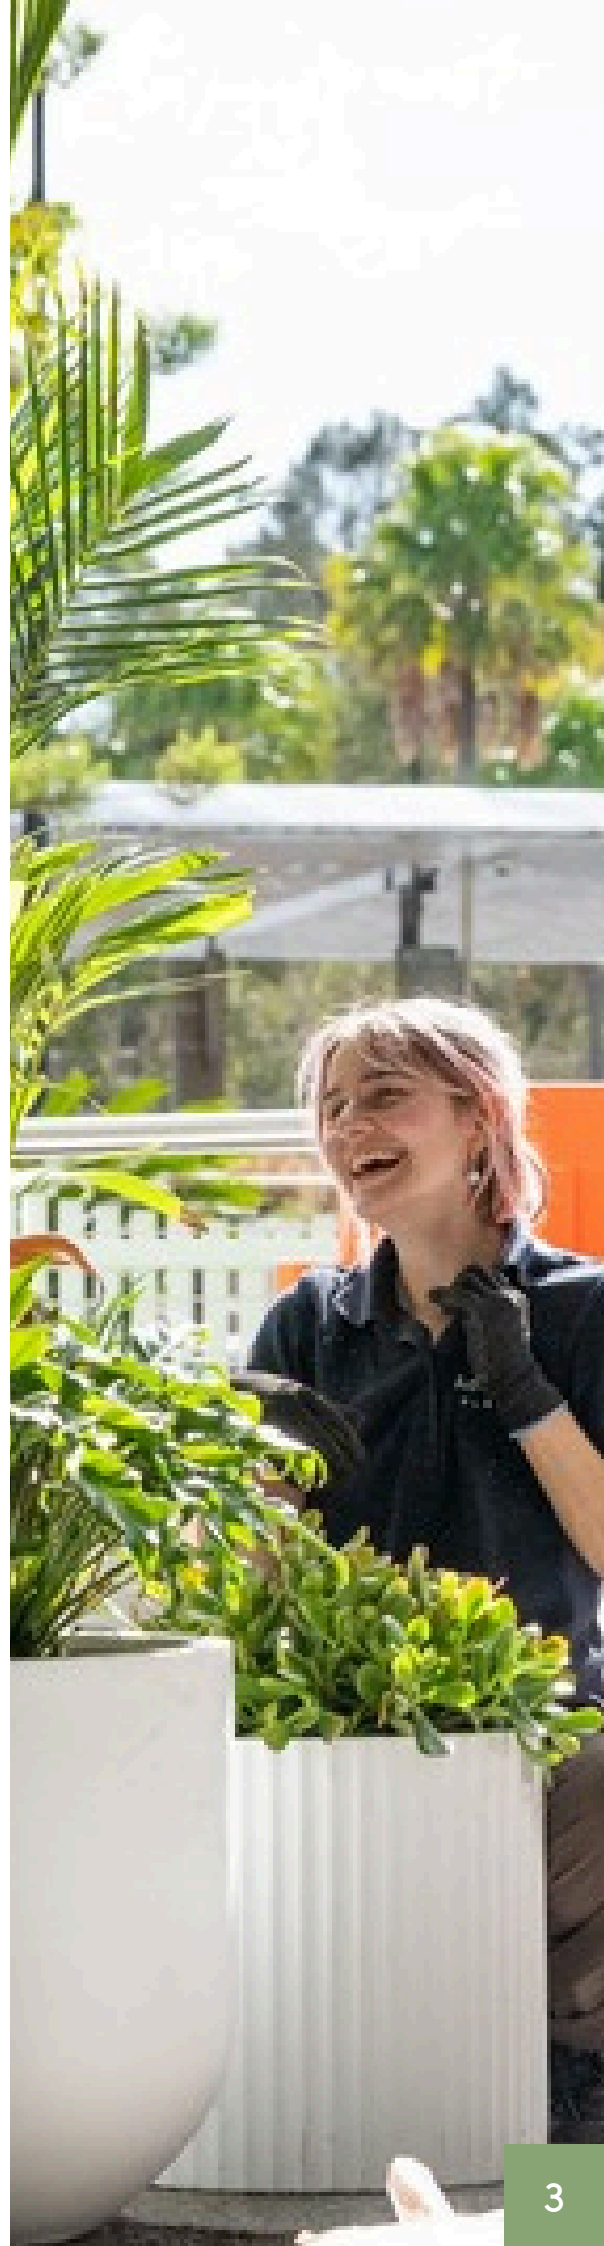

Who we are

Advance Plants is South-East Queensland's largest independently owned indoor plant hire and landscape maintenance businesses.

Over the last four decades we have built a reputation for delivering the highest quality products, and providing consistently great service to our clients.

Our focus is on serving commercial clients. These include some of Queensland's largest shopping centres, a broad range of prestigious hotels, a large number of corporate offices as well as many other types of businesses.

What we do

Advance Plants specialises in three areas:

- Indoor plant hire: We have a dedicated indoor plant hire team (including designers, installers and maintenance technicians) that have vast experience in creating stunning interior plantscapes for our clients.
- Landscape maintenance: We also have a separate, dedicated landscape maintenance team who maintain the grounds and gardens at various hotels, shopping centres and body corporate clients.
- Green walls: Our team has significant experience in designing, installing and maintaining green walls. Importantly, our vertical garden designs use only the latest systems that ensure an optimal look all of the time.

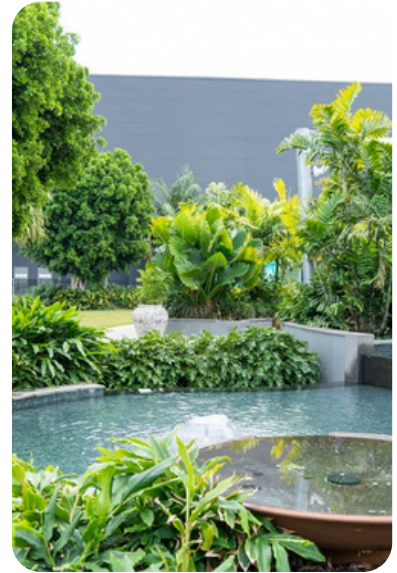

Where we operate

Advance Plants operates all across South East Queensland, with a head office in Brisbane and depots in Logan and on the Gold Coast.

We're
bringing
spaces to life
everywhere
you look.

Why Choose Us?

- We pride ourselves on delivering products and services of the highest quality.
- We take the long term view—many of our clients have been with us for decades, and we strive to ensure our clients are consistently delighted with our service.
- We research, understand and anticipate market trends and customer expectations, and strive to lead our industry in relation to innovation and the adoption of new technology.
- We have been in business for four decades, and our team has a depth of experience, qualifications and skills that is rare in our industry.
- We are passionate about sustainability, and will use environmentally friendly products wherever possible
- We are a local family owned business, as are the vast majority of our suppliers.
- We believe our job isn't finished until our client is thrilled with the work we have done.

IN THE

Community

Advance Plants' aim is to be the best corporate citizen it can be. Our focus has primarily been to support Indigenous education as well as non-profits that reflect our dedication to diversity. Within the last twelve months, we have supported:

Sponsorship to support Indigenous education.

Sponsorship of Indigenous program.

Regular purchasing of plants through "Oxford Park" which employs people with special needs.

We Support Local

Founded on the Gold Coast, headquartered in Brisbane, we employ over 40 Queenslanders; and as a local family-owned business, we have a deliberate strategy to source the majority of our inputs from other local, family-owned businesses.

Tingalpa Wholesale Nursery

Coorang Wholesale Plants

Diversity

We are proud of the work we have done to promote a diverse workforce:

- 51% of our overall team are female, 66% of our leadership team are women;
- We offer flexible working arrangements to support greater gender diversity;
- Our team is made up of people from a wide variety of ethnic groups, ages, sexual preferences and neurodivergent individuals.

Sustainability

Advance Plants integrates sustainability into strategy, operations, and community impact through the following initiatives:

- Vision 2027 & net zero roadmap: sustainability embedded into values and training, with a target of net zero operational emissions by 2035
- Renewable energy & emissions reduction: solar-powered Brisbane head office supplying over 80% of daytime energy needs, supported by route optimisation and battery-powered tools
- Low-impact landscaping practices: replacement of petrol equipment with battery alternatives and use of Superfines recycled mulch to reduce landfill and improve soil health
- Circular resource management: PP5 pot recycling, reuse of potting mix, salvaged decorative stones, mulched green waste, and dedicated recycling streams
- Responsible local and social procurement: prioritising Queensland suppliers including Help Nursery and Oxford Park Nursery
- Measurement, people & community impact: independent carbon reporting, biannual waste audits, staff participation, diverse leadership representation, and education partnerships

WHAT WE DO

Indoor Plants

Indoor Landscaping, Plant Styling & Hire

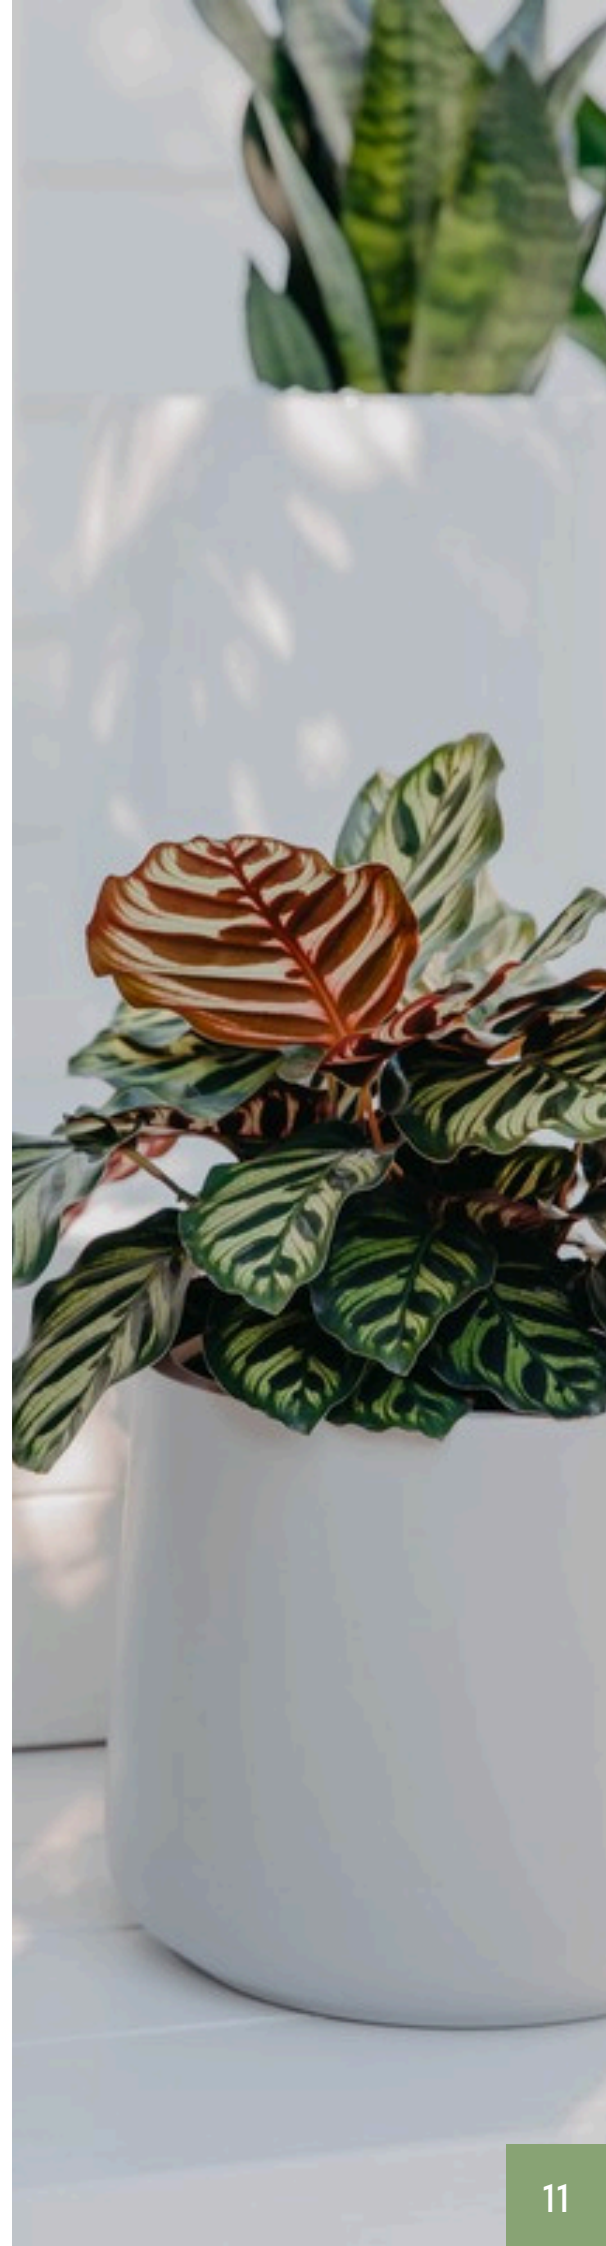

We provide all facets of indoor landscaping, in a range of service combinations such as:

- Indoor plant hire
- Plant and pot styling, and installation
- Interior landscape maintenance

For as little as \$50/week, you will receive a site evaluation, plant styling with real and artificial plants suited to your business' needs, pot/containers and ongoing maintenance.

We use the finest plant stock and premium soils to ensure your plants always look their best.

We also replace deteriorating plants free of charge as part of our ongoing service and provide a 90 day guarantee with all of our installations. If you aren't 100% satisfied with the plants we've installed, we'll replace them free of charge.

Our service promise

The plants we install will be lush and healthy specimens that will enhance and complement your décor.

Our trained and uniformed maintenance technicians will service the installation on a regular basis all year round.

To ensure your display always stays fresh and healthy, your service will include:

- Watering
- Cleaning and polishing foliage on plants
- Wiping down decorative containers
- Monitoring moisture and ph levels
- Removing weeds, yellow leaves and any unwanted growth
- Pruning and turning plants to maintain size, shape and design intent
- Inspecting for signs of disease
- Fertilising on a regular basis
- Replenishing topdressing when necessary
- Changing plants when they start to deteriorate

A routine inspection of your installation is also carried out periodically by a supervisor to ensure a professional standard is always maintained.

WHAT WE DO

Landscape Maintenance

Landscape Design & Maintenance

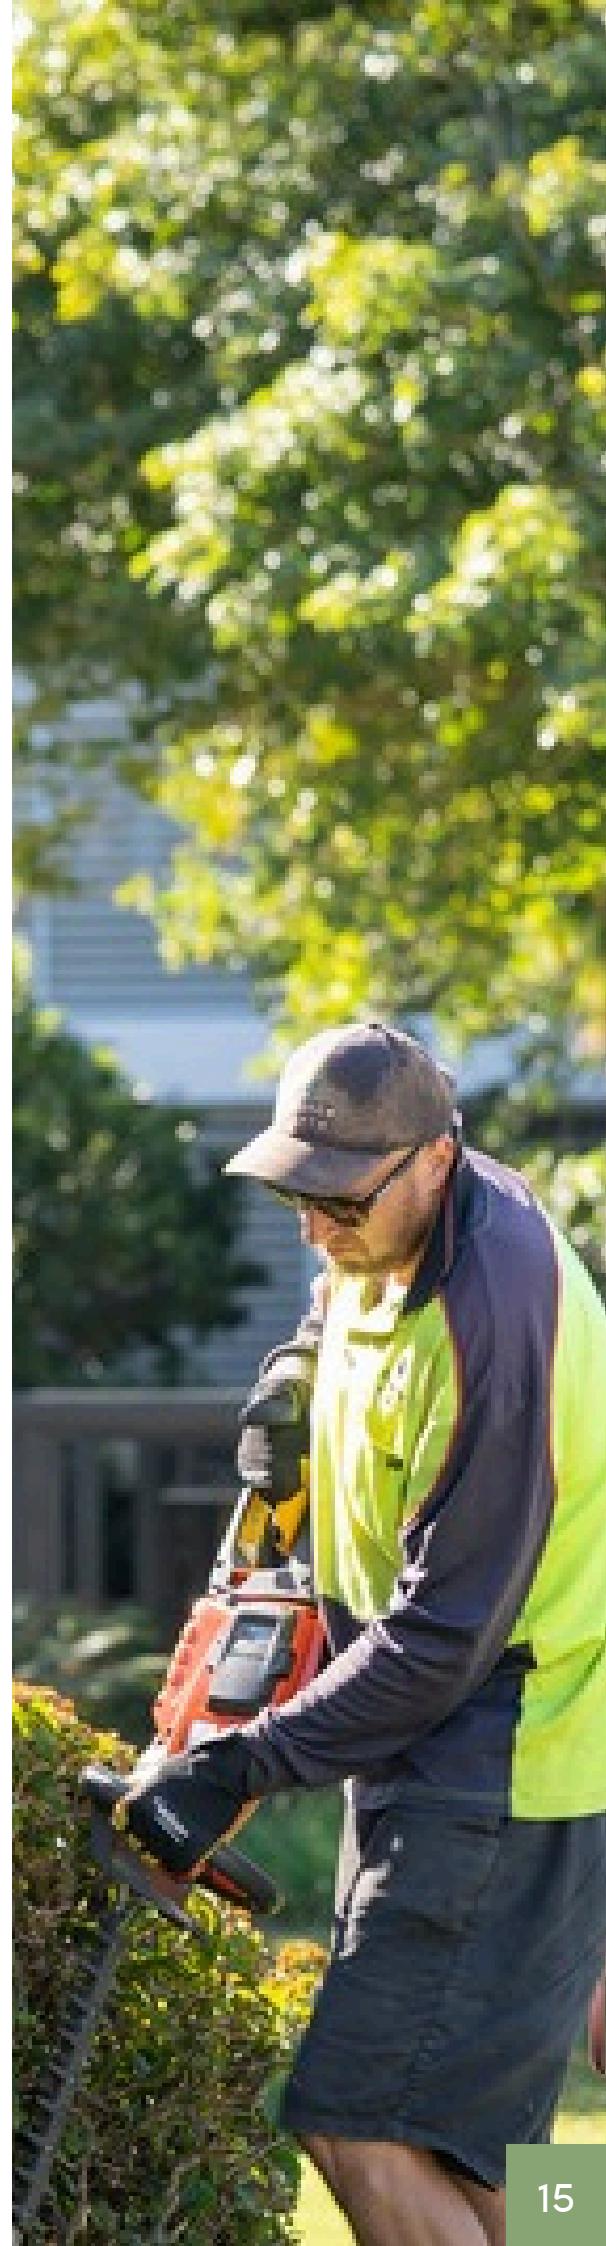

From start to finish, we are your full service landscape provider.

Backed by a large team of qualified horticulturalists passionate about keeping your garden looking beautiful; we design, build and maintain everything from large five star resort gardens through to smaller, one-off jobs.

Our full range of services include:

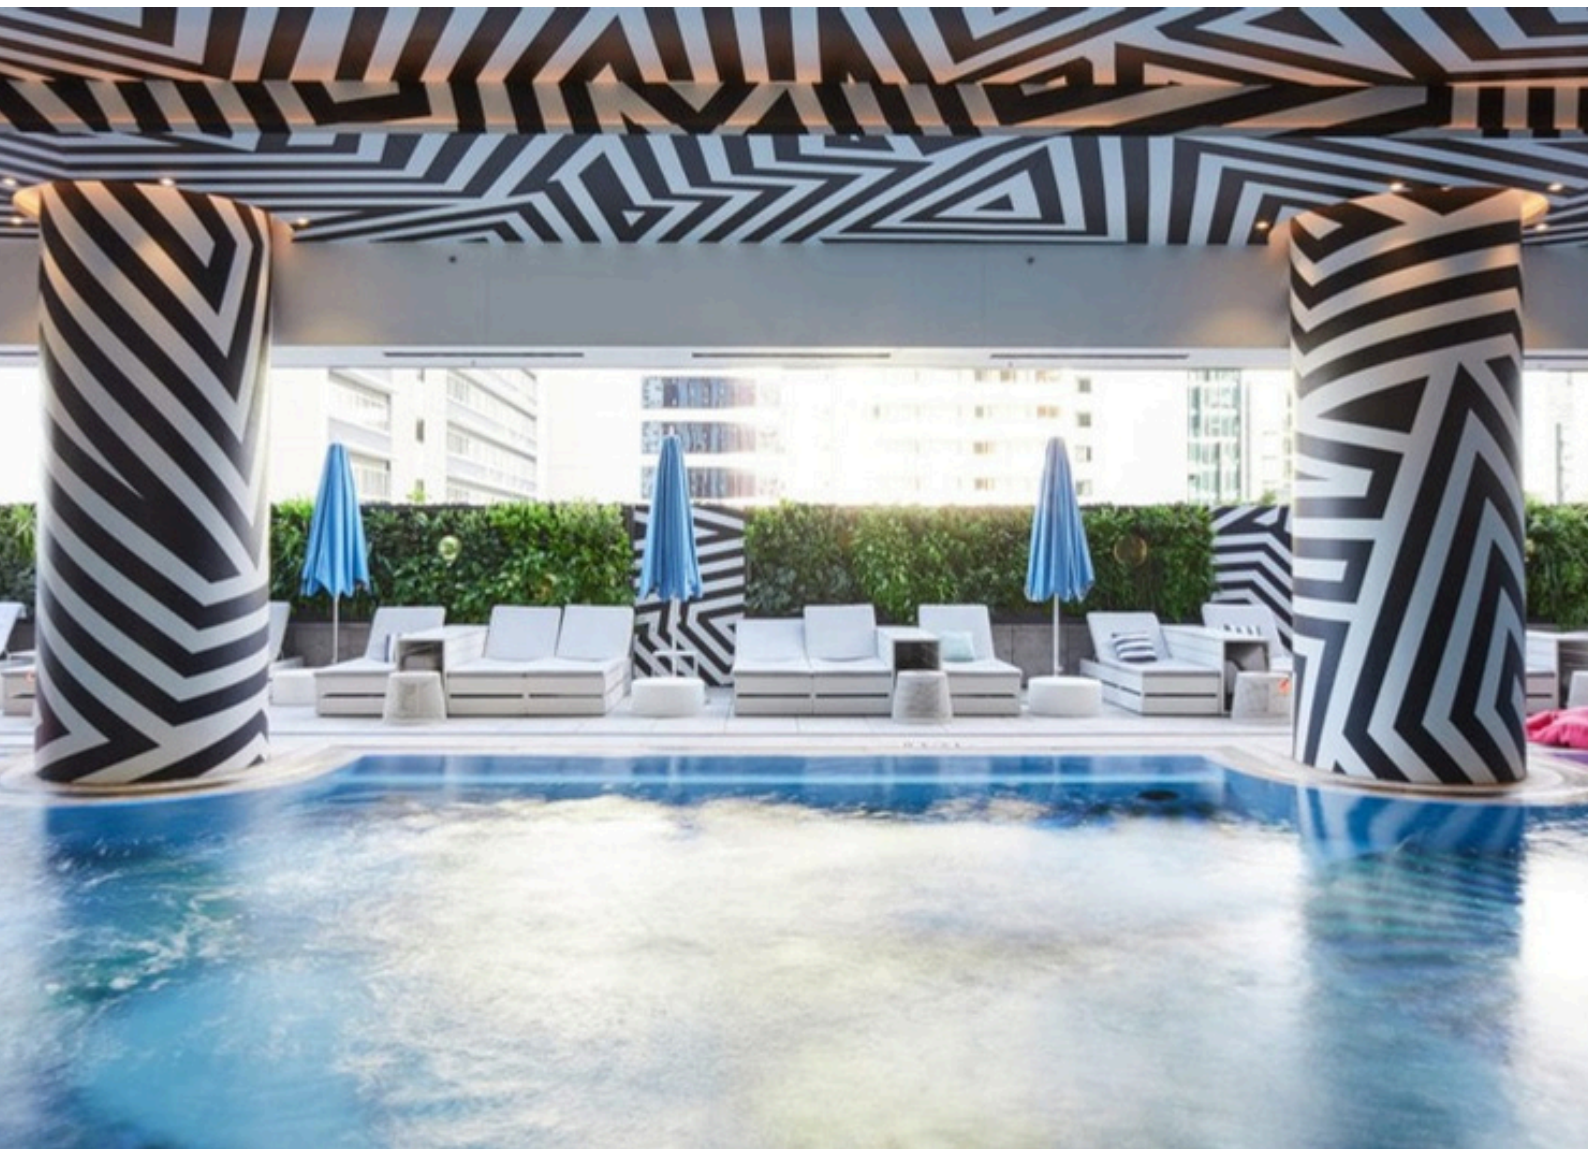

- Landscape design and consultation
- Programmed annual maintenance
- Integrated pest and weed control
- Irrigation installation and maintenance
- Water features
- Comprehensive open space management
- Sports turf management
- Environmental management

Our team uses the highest quality landscaping equipment to ensure a premium finish and can be on the ground quickly to respond to any emergency as part of our 24/7 service.

WHAT WE DO

Green Walls

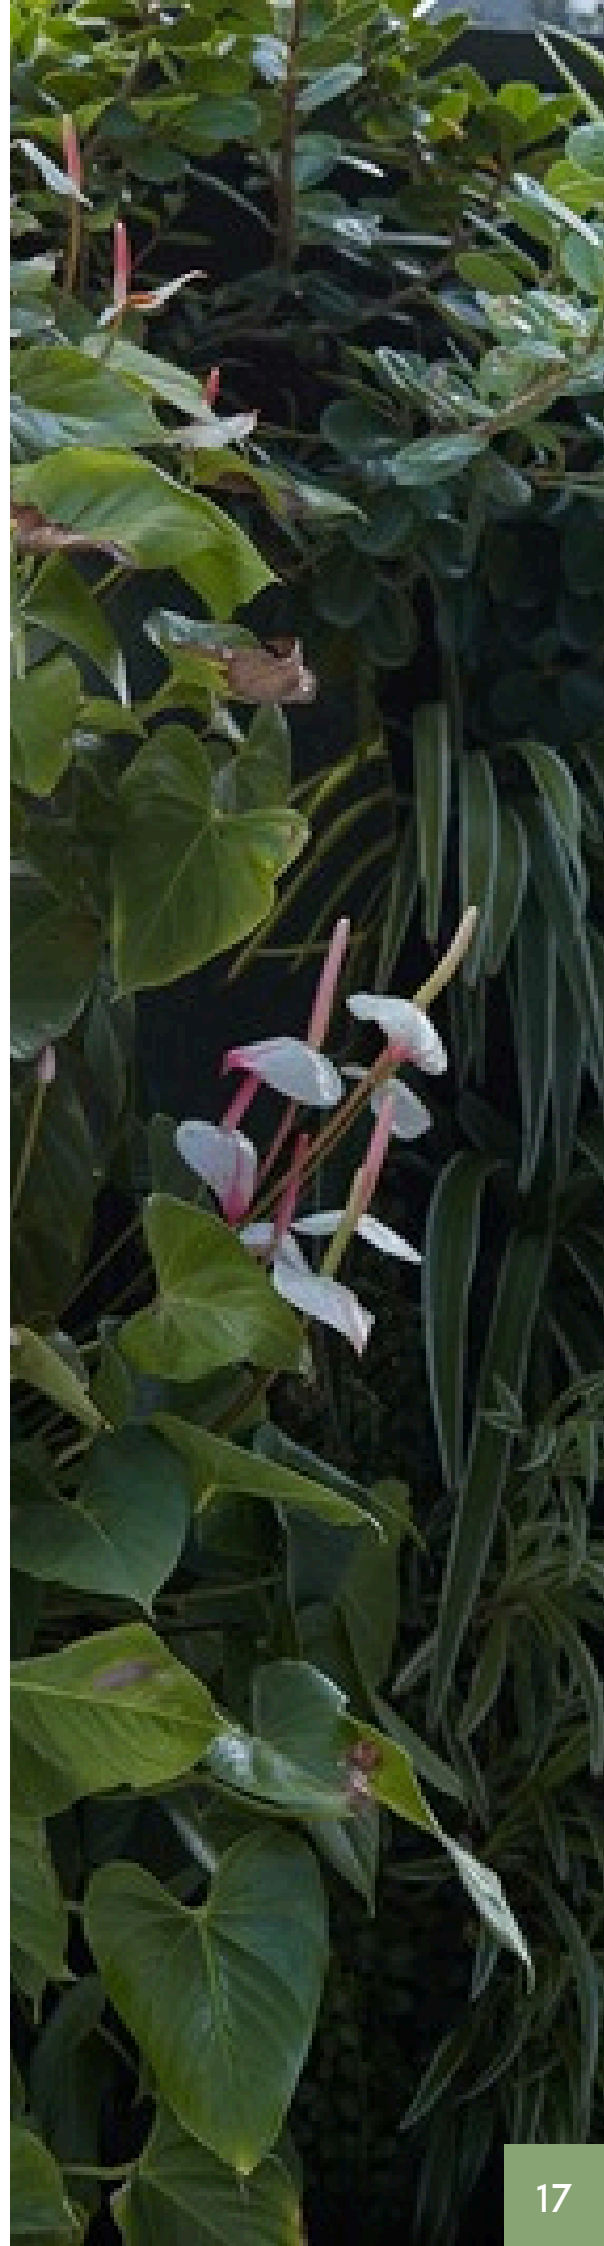

Green Walls & Preserved Moss Walls

There is no better way to bring your place to life or to make an eye-catching statement than with a green wall, green façade, green roof or preserved moss wall.

We provide a comprehensive service that includes design, installation and ongoing maintenance.

Our vertical garden designs use only the latest systems that allow for easy plant updates and replacements, ensuring an optimal look all of the time.

We also regularly monitor the integrated irrigation system to ensure the plants are getting just the right amount of moisture and nutrients.

"I didn't know where to start. I knew I wanted a green wall of sorts as I had seen them installed in other offices (and) I was referred to Sharon from Advance Plants.

"From the first call, I knew I was dealing with a company that cared about the solution, cared about the fitout, and cared about the look and finished product.

"My brief was loose, but the team at Advance Plants guided me through the plethora of issues associated with green walls and solved that aspect of my fitout.

"It comes down to trust. And letting them simply take care of business was a great decision. They looked after my green wall installation from concept to completion.

"Advance Plants are maintaining the green wall and it looks as great as it did the day it was completed."

Small installation

"We have used the services of Advance Plants for nearly 10 years and in this time we have had excellent personalised service from their team with Sharon always being available for different ideas.

"Sharon was very helpful when we moved to a purpose designed building in 2012 and was instrumental in providing a green wall which she even used to change for the Christmas period to have red foliage.

"We are now undertaking some renovations in our building and once again we have the services of Sharon assisting with yet another new design incorporating "green" into our workspace.

"I would recommend Advance Plants if you want a healthy green environment in your office or shops, as even down to their friendly man who comes every week to tend them completes the service."
